

NBA Players Dashboard

A comprehensive visualization platform designed to uncover deep insights into basketball performance. This dashboard brings together a rich dataset of player and team statistics, offering intuitive visualizations to explore key metrics, trends, and relationships within the game.

From team performance over seasons to individual player contributions, this dashboard empowers users to:

- Analyze team and player statistics.
- Compare shooting efficiencies and assist leaders.
- Understand height and weight distributions among players.
- Visualize global representation and college contributions.

Whether you're a basketball analyst, coach, player, or fan, this tool provides a data-driven perspective to enhance your understanding and appreciation of the sport. Let's dive into the world of basketball like never before!

Avg. Usage Percentage, Points, Games Played

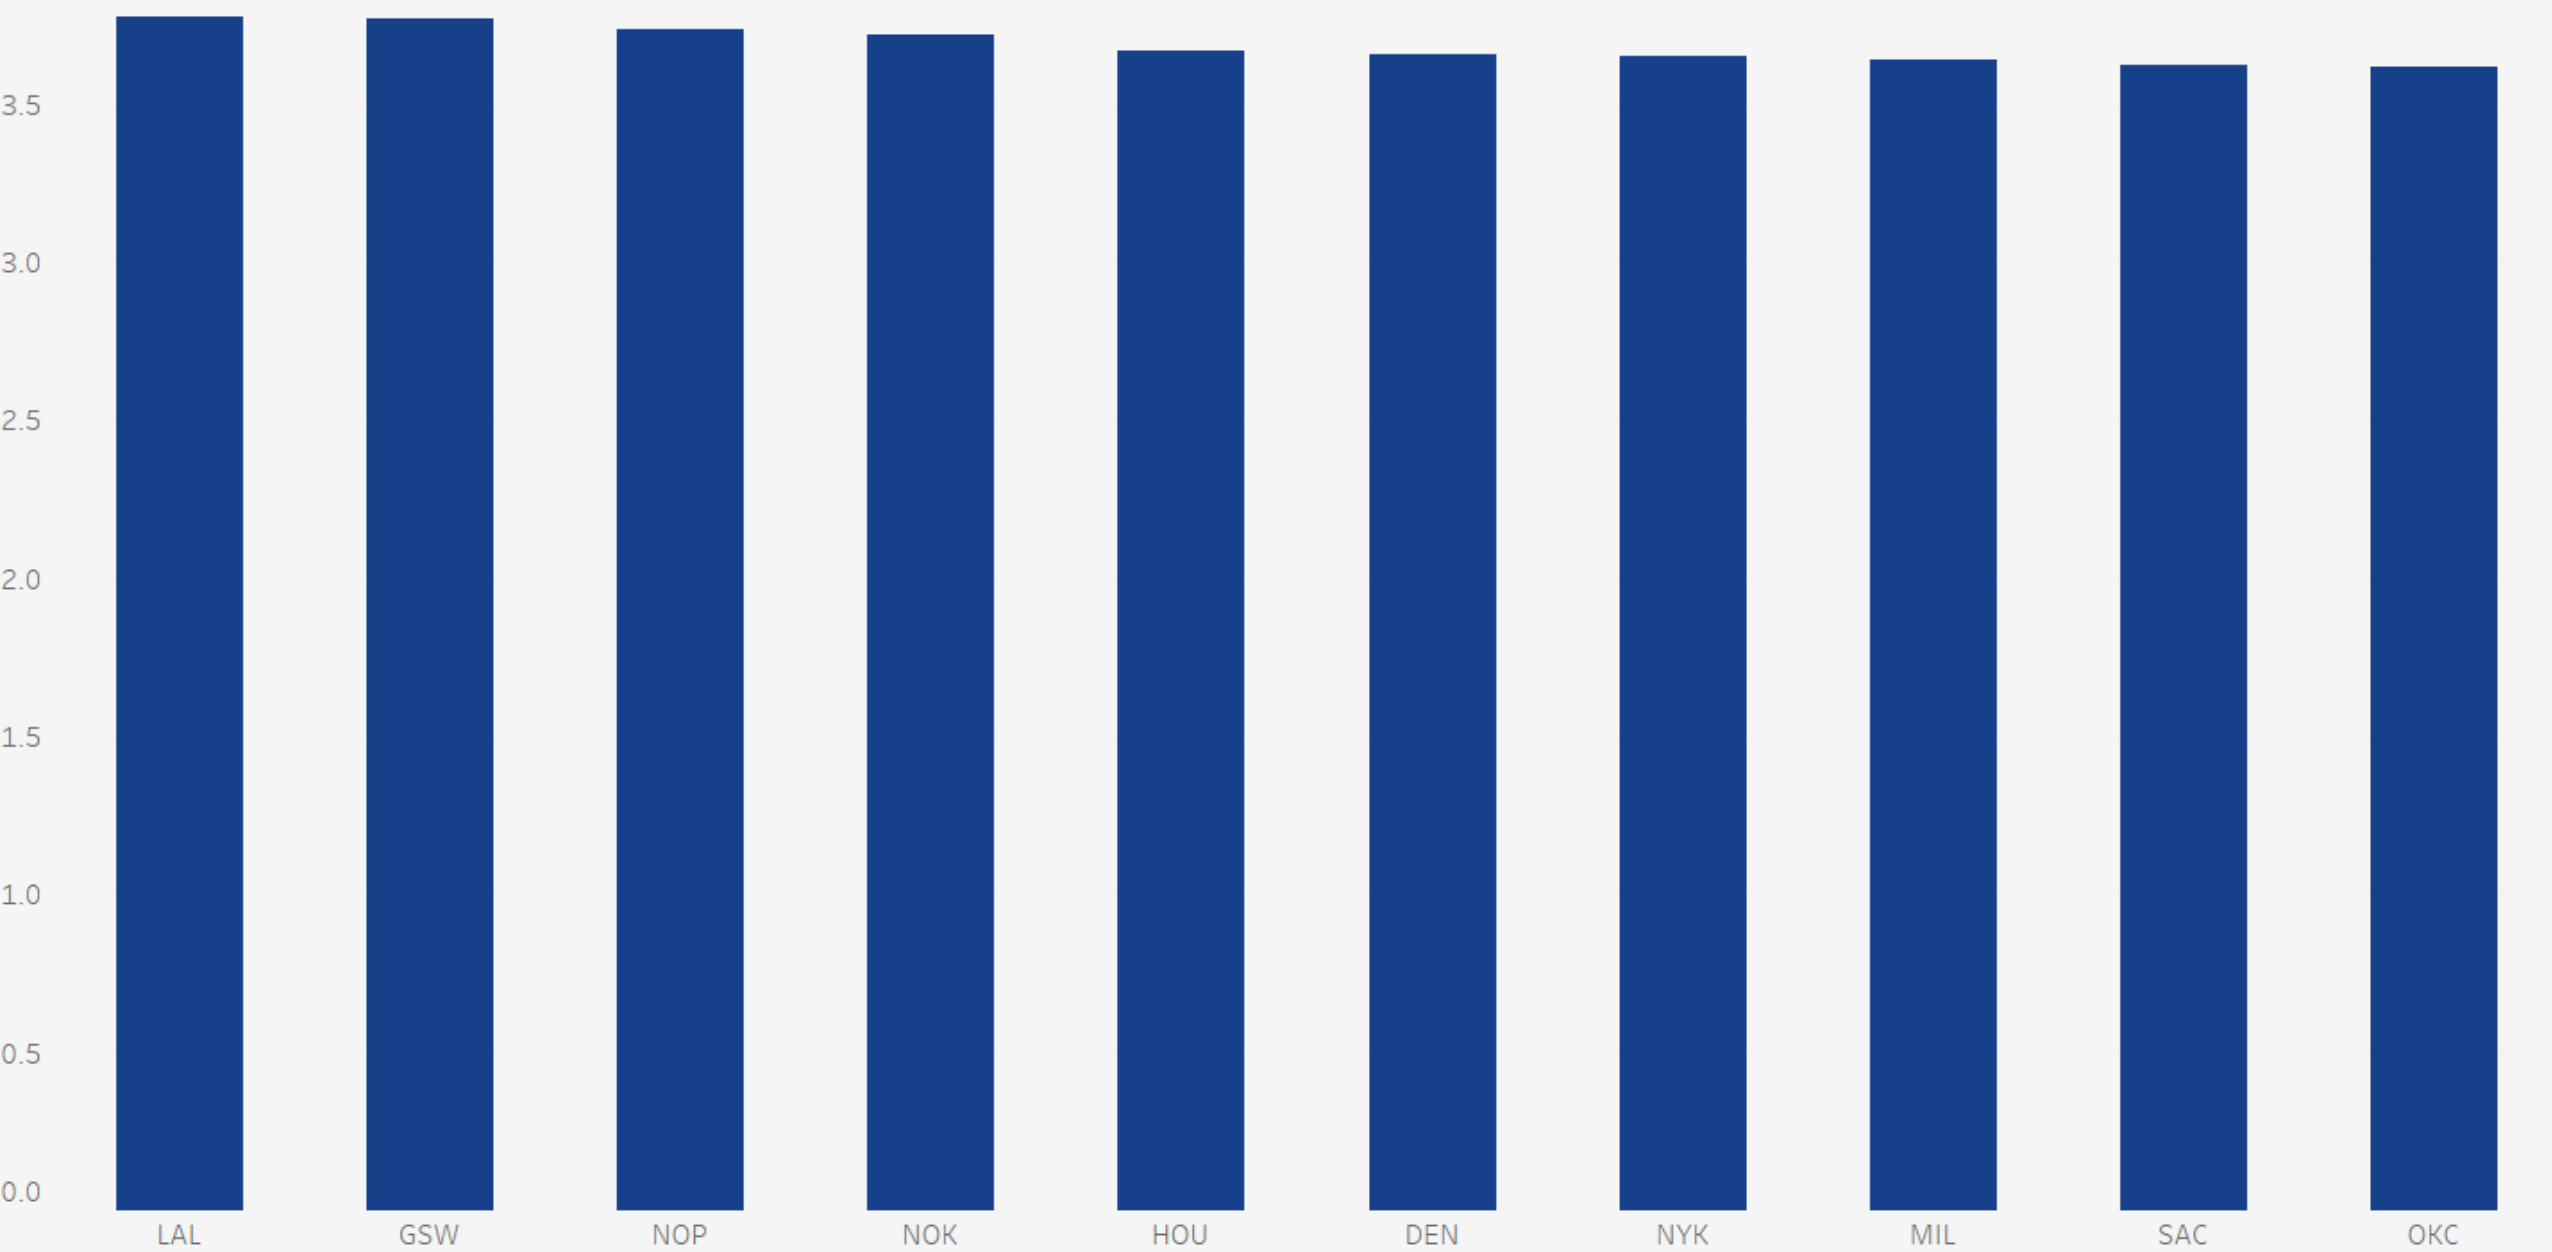

Average of Usg Pct vs. average of Pts. Color shows details about Team Abbreviation. Size shows average of Gp. The marks are labeled by Team Abbreviation. The view is filtered on Team Abbreviation, which keeps 10 of 36 members.

Team-wise Performance Overview

Average of Pts for each Team Abbreviation. The view is filtered on Team Abbreviation, which keeps 10 of 36 members.

Avg. Rebounds by Teams Abbreviation

Average of Reb for each Team Abbreviation. The view is filtered on Team Abbreviation, which keeps 10 of 36 members.

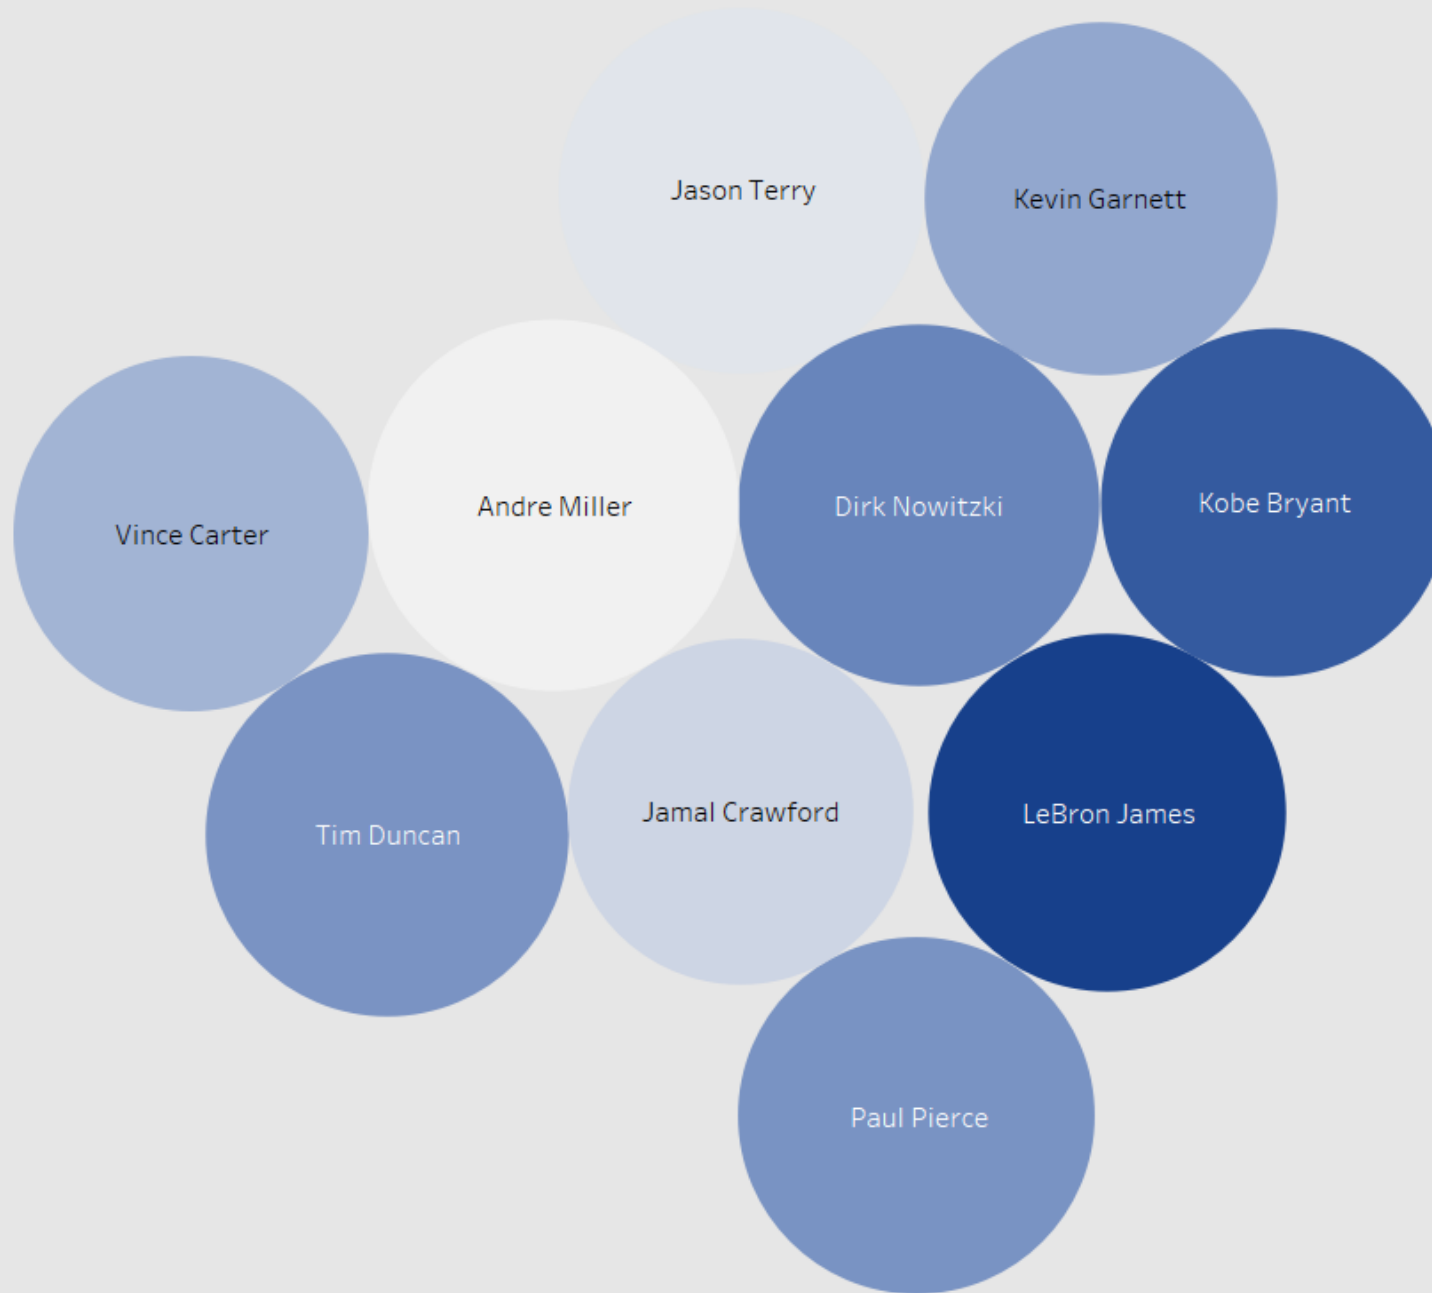

Top 10 Assists Player

Player Name. Color shows average of Ast. Size shows average of Ast. The marks are labeled by Player Name. The view is filtered on Player Name, which has multiple members selected.
